

He Awa Whiria - 2025 BHNZ National Convention

# NEWSLETTER 2 - The Headwaters

June 8 2025

## Kia ora e te whānau barbershop,

It's hard to believe—we're just **three months out** from the 2025 BHNZ National Convention in beautiful Ōtautahi Christchurch! The excitement is building, and I know that across Aotearoa, quartets and choruses are deep in rehearsal mode, refining their sets and preparing to take the stage with heart and harmony.

This year, our theme **He Awa Whiria – A Braided River** speaks to the way we come together: individual voices, unique paths, merging into something stronger, wider, and more vibrant. Like the mighty rivers of Te Waipounamu, we each bring our own current—our stories, our sounds, our shared passion for barbershop—and converge into a powerful musical flow.

Behind the scenes, our convention team is hard at work, ensuring this year's gathering is **memorable, inclusive, and full of joy**. From logistics to laughter, accessibility to artistry, the mahi continues—because we want every moment, on and off the stage, to reflect the spirit of our barbershop community.

## How Judging Works

He Awa Whiria will be attended by 8 Judges - 2 from each category. Together, these judges ensure that the competition flows smoothly, and that all participants have an equal opportunity to deliver a performance they are **proud** of!

The judging categories present at He Awa Whiria will be:

*Contest Administration:*

- Administrative

*Contest Scoring*

- Musicality
- Performance
- Singing

The Administrative Judges are responsible for *managing* every aspect of the contest. Meanwhile, the performance of each song is *scored* by three categories: Musicality, Performance and Singing.

Each judge scores each song out of 100 for specifically their category, and the average of these scores is taken as the score for the song. Although the three categories are unique, the same qualities which positively/negatively impact one category will often similarly affect the other two categories. This means that you will typically see similar scores across all 3 categories.

On the score sheet, each category for each song will have a number out of 200, which is the sum of both judges' scores for that category. For example, the contestant below scored 181 in the Singing Category for song 1, which is an average of 90.5%. The Avg(%) shown on the right side of the scoresheet (89.6) is the average of every judge's scores over both songs. This overall average is the score used to rank the choruses.

Contestant	No	Song	Scores				
			Singing	Music	Perf	Total	Avg(%)
Contestant -	1	Song 1	181	176	180	1075	89.6
		Song 2	178	179	181

## The Judging Categories

The following category descriptions are sourced from the BHS (Barbershop Harmony Society)'s web page on [Contest Judging](#). BHNZ's judging system is designed to closely reflect that of BHS.

### **Musicality**

**Musicality** is defined as the song and arrangement, as performed. The Musicality Category judges the suitability of the material to the barbershop style and the performer's musicianship in bringing the song and arrangement to life.

The Musicality judge is responsible for adjudicating the musical elements in the performance, judging the extent to which the musical performance displays the hallmarks of the barbershop style and the degree to which the musical performance demonstrates an artistic sensitivity to the music's primary theme(s). The sensitive handling of musical elements, such as melody, harmony, and embellishments, demonstrates musicality in a performance. A strong musical performance is one in which everything provided by the composer and arranger is skillfully delivered and effectively integrated in support of the musical theme.

### **Performance**

The **Performance** judges evaluate how effectively a performer brings the song to life. They judge the entertainment value of the performance; the art of the performance.

One significant goal of any art form is communication. A barbershop performance refers to how the artist communicates his/her message and vision via the transformation of a song into an entertaining experience for an audience. The performance of a song is the artist's gift to the audience; whose experiences, memories, and imagination transform that gift into an emotional experience. The performers' goal is to create a high level of entertainment through the performance. The means to that end are as varied as the personality, abilities and creative skills of the performers.

### **Singing**

In the **Singing** category we judge artistic singing in the barbershop style – listening holistically for ringing in-tune voices that use a free, beautiful and rich vocal quality, which is wonderfully unified and vocally expressive.

Judges in this category evaluate the degree to which the performer achieves artistic singing in the barbershop style: the production of vibrant, rich, resonant, technically accurate, and highly skilled sound, created both by the individual singer's use of good vocal techniques, and by the ensemble processes of tuning, balancing, unity of sound and precision. They listen for a sense of precise intonation, a feeling of fullness or expansion of sound, a perception of a high degree of vocal skill, a high level of unity and consistency throughout the performance, and a freedom from apparent effort that allows the full communication of the lyric and song.
